

Perfect Weddings 

It's Your wedding - But we make it perfect for You!

This is how our story begins...

With over 20 years in the wedding planning industry Pat had assisted brides from all over the world to make their dreams come true.

Creating perfect wedding days is her passion. So, three years ago she started her own company, with her own team and her own ideas.

Perfect Weddings are here to help you plan your Perfect Day. We listen to what you find important and translate that into ideas for your wedding.

“The thought of planning a wedding abroad was daunting one at first but as soon as I emailed Patricia she made it easy and stress free. Nothing was too much trouble, what she wanted, she got.”

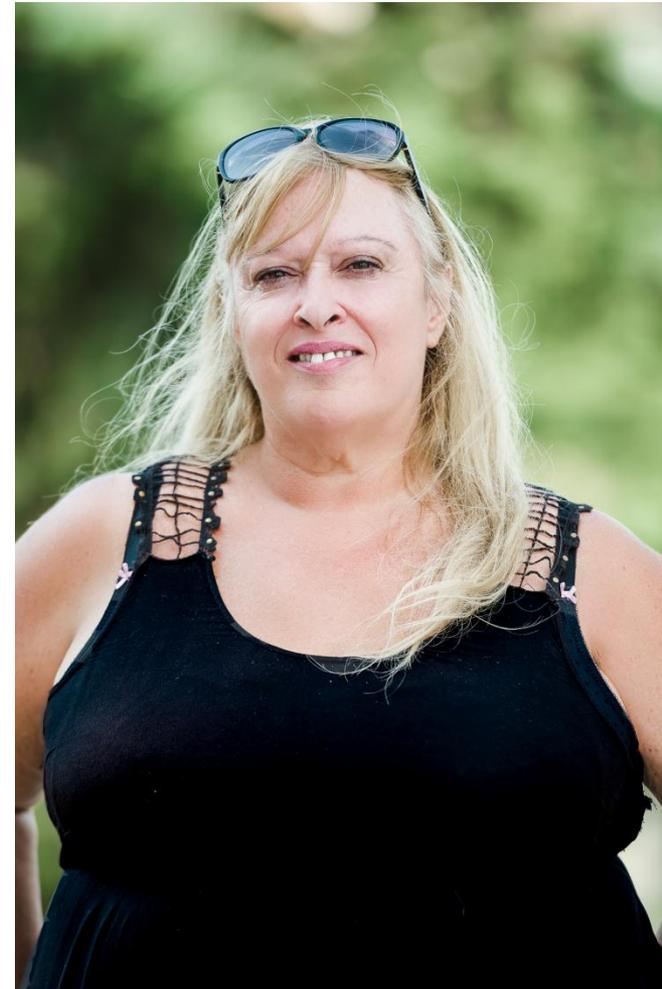

Ersilia Brown - Mother of the bride 2012

About Pat

I have always loved everything about weddings, so when I got to the age that I needed to decide on something that I could do for work for the rest of my life it only made sense to me that I should do something with weddings.

So what I decided to do, was to help couples have the perfect dream wedding that they have always wanted, and to not have to worry about anything while they prepare themselves for the greatest day of their lives.

Do I really need a wedding planner?

Do you need help to stay within your budget?

Many couples go over budget because they aren't sure how a particular cost fits in with the big picture, or are easily swayed by costly upgrades from their vendor. A good wedding planner will help you determine what is necessary for your budget.

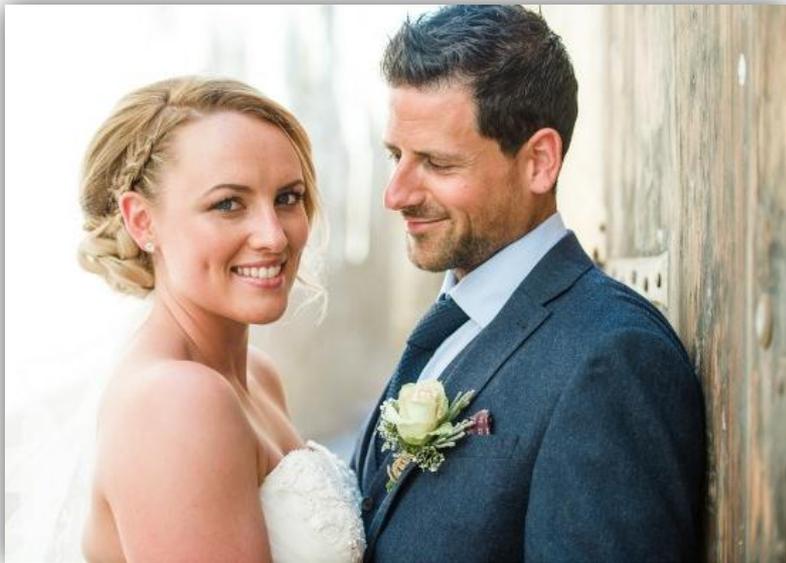

Do you have the time to plan your whole wedding yourselves?

The average wedding will take 200-400 hours to plan, and this can be extremely overwhelming for busy couples. We can help you find the best wedding photographer or that perfect caterer for your reception—something that could take you forever to do if you have a busy schedule.

Can you visualise what you want?

We can understand and interpret your vision. Our job is to listen to what you want and make it happen in the most realistic terms. If it's something that can't be done, they can help turn your idea into a better one that can actually work.

We will have thought up lots of creative solutions for complications you haven't even thought of yet.

What Perfect Weddings can do for you.

We make sure that everything is running on schedule, everyone is looking as sharp as they should be and any to troubleshoot any other kind of stress that you might encounter.

Think about all the things that need to be planned, you don't have to do that yourselves, we can do it for you.

Furthermore hair and make up of the bride, the photographer, the transport, the reception, the rehearsal, gift ideas, the flower arrangements, the food for the ceremony and rehearsal dinner, the vows, the toasts and so on so forth! We could literally go on forever with this long list of things that need to be done. But you do not have to worry about anything. All is in our hands 😊

Consider us as one of the family - no challenge is too big or too small!

Why Perfect Weddings ?

A lot of brides get anxious when they hear the words 'paperwork' because so many planners fill their heads with the idea that it is difficult and needs a lot of time. Documentation required to get married in Malta is minimal and with our guidance nothing at all to worry about. You give us the documents and **we do the rest!**

Did you know that the average bride spends 250 – 300 hours organising her wedding? Do you have time to spare? Saving you valuable time is not the only thing a wedding planner does. We are NOT only available for those large budgets but for all couples who want to do things even with a restricted budget.

We will assist you in obtaining a realistic budget, based on how much you have to spend and in most cases, will save you money!
